

## HD 386

### SUPER-COMPACT DIGITAL SCALE

#### Benefits

The Tanita HD-386 is probably the world's smallest personal scale.

Weighing just 500g, this highly portable scale comes with its own protective case, making it ideal for travelling and storing away neatly in a drawer or cupboard.

The HD-386 is suitable for use by adults and children and the extra-large, easy-to-read display operates by tap-on activation.

The scale is available in red (RD), green (GR), black (BK), pearl white (PW) or orange (OR).
